

## Water meter's technical data

<b>Accuracy</b>	Water metering	> 95%
<b>Data Storage &amp; Load Profile</b>	Water consumption	Up to 24 month
	Maximum flow	
<b>Credit Features</b>	Data exchange via smartcard/COM ports	
	Adjustable operation in credit mode via smartcard	
	Definable total monthly/annual water allowance	
	Definable water allowance for each month	(up to 24 months)
	Definable water allowance start date	
	Definable water allowance expiry date	
<b>Measuring Parameters</b>	Total water consumption	
	Instantaneous water flow	
	Electro-pump operating time	
<b>Disconnection Features</b>	Programmable relay	
	Power disconnection in case of exceeding water allowance	
	Power disconnection in case of water allowance expiry	
<b>Adaptation</b>	Smart detection of the improper operation of electro-pumps	
	Work with different levels of water hardness	
	Compatibility with different types of electro-pumps
